

McKenney's buildingHEALTH™

Innovative dashboarding solutions to communicate the health and wellness of your buildings

As workplaces around the world begin to reopen, property managers and building engineers are adhering to a new set of protocols to keep all building occupants safe—from cleaning and sanitation practices to changes in their building management systems.

But communicating these changes to tenants and occupants can be a challenge. Choose McKenney's buildingHEALTH™ and provide peace of mind to tenants, occupants and visitors through real-time, data-driven dashboards that share building wellness insights.

A Deep Dive into buildingHEALTH™

SHARE

Share your dashboards seamlessly through a custom web portal, mobile-friendly interfaces and digital signage.

SUMMARIZE

Display how healthy your building is at any given moment with one easy-to-understand visual.

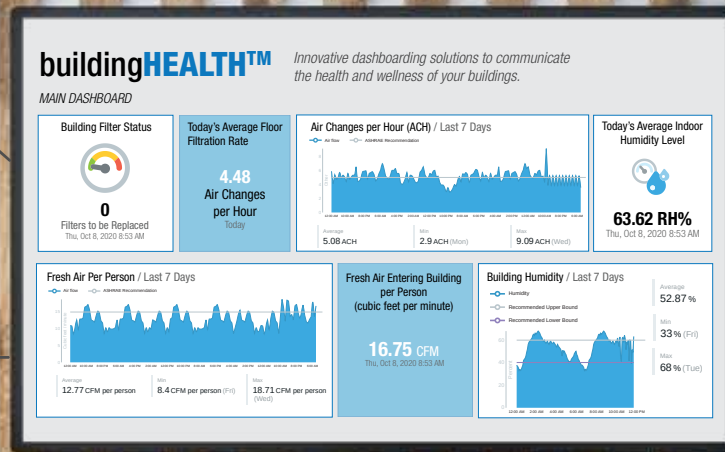

MANAGE

Manage and display real-time reports, alarms and notifications relevant to your occupants.

TELL YOUR STORY

Create customized dashboards that highlight your specific building health initiatives.

MEASURE

Benchmark your building's performance against ASHRAE's COVID-19 readiness and reopening guidelines.

FRESH AIR

Highlight fresh air levels per person, total number of air changes per hour and the status of your air filters.
